

Texas Department of Insurance  
**Insurance License Renewal**

## Agent Profile

Note to agents and adjusters:

- Renewal notices will be emailed to your business email address. You can check and change the email we have for you by going to the [Sircon](#) website.
- You can renew your license online starting 90 days before your license expires. When it's time to renew, a "Renew license" button will appear on this page.
- Not all license types are able to renew through this portal. If you don't have more than a month to renew, or don't see your information on the search, go to the [Agents/Adjusters](#) section on the TDI website to learn about your options.
